NIEM was adopted formally by JCIT and is promulgated in data

## 2 SYSTEM DATA EXCHANGE STANDARDS

In accordance with Texas Administrative Code, Title 1, Part 8, Chapter 177, information exchanges that occur between the various systems (electronic filing manager, case management, document management, etc.) should occur using the current OASIS LegalXML specifications. The OASIS LegalXML specification is a subset to NIEM.

## 3 DIGITAL MEDIA STANDARDS

In addition to content and formatting promulgated by the Texas Rules of Civil Procedure, Texas Code of Criminal Procedure, and Texas Rules of Appellate Procedure, the following standards apply to digital media filed electronically or scanned from source records (filed after the effective date of these standards) by the clerk.

### 3.1 DOCUMENTS

## Technology Standards v4.0

- A. An e-filed document must be in text-searchable PDF, using fonts specified in the PDF specification, on 8.5x11 page size, with the content appropriately rotated.
- B. When possible, the document should be generated directly from the originating software using a PDF distiller.
- C. Prior to being filed electronically, a scanned document must have a resolution of 300 DPI. Preferably, scanned documents should be made searchable using OCR technology.
- D. An e-filed document may not contain any security or feature restrictions including password protection or encryption and may not contain embedded multi-media video, audio, or programming.
- E. Documents may not contain package PDF's. PDF's should not be embedded inside of another PDF. Documents may not contain embedded fonts. Each document must be a single PDF. An appellate court may require that multiple PDF documents be combined into a single PDF document and bookmarks used to separate content appropriately. The content of the document should not depend on bookmarks.
- F. Any e-filed document filename should contain only alphanumeric characters that are part of the Latin1\_General character set. No special characters are allowed and the length of the filename should be restricted to 50 characters.

### 3.2 AUDIO/VIDEO

- A. The following media players are supported (specific audio/video formats can be found on each media player's website):
  - a. VLC media player (VideoLAN Organization)
  - b. Windows media player (Microsoft)
- B. When an audio/video file is natively supported by at least one media player listed in these standards, the file must not be converted into another format.
- C. If an audio/video file is not natively supported by at least one media player listed in these standards, the file must be converted to another format supported by at least one media player listed. The original, any hardware requirements, and software needed to view/hear the original must be submitted as well.
- D. If modifications are needed to enhance the native audio/video, a copy of the original must be made. The modified copy (submitted in addition to the original audio/video) must also be generated in a format supported by at least one media player listed in these standards.

## 4 EFILING FILING CONFIGURATIONS

Below are the standard filing configurations to be used in the eFiling system for district, county court at law, probate, constitutional county, and justice of the peace courts. This list of filing configurations must be accepted in each court. Courts and clerks may not add to this configuration, but may eliminate codes if not needed in a particular jurisdiction.

It is important to note that these standards only apply to the electronic filing system which is a delivery system and are NOT standards for a county case management or document management system.

## 4.8 OTHER STANDARD ELECTRONIC FILING SYSTEM CONFIGURATIONS

### 4.8.1 STANDARD FILER PROCESSES

All filers using the electronic filing system must follow the standard processes when filing particular items with the court. Clerks may not return a document for correction if the filer followed the processes outlined below.

#### 4.8.1.1 Proposed Orders

Proposed orders may not be combined into one computer file with a motion or other document.

A proposed order may not be the lead document in an envelope containing a motion or other document. When filed with a motion or other document, a proposed order must be filed as an attachment in the same envelope as the motion or other document.

If nothing is being filed along with the proposed order, the proposed order must be the lead document.

#### *Preferred Clerk Implementation*

1. Clerk includes the proposed order in the case management system for judicial review.
2. Judge modifies and then signs the proposed order (transforming it into an order) and returns it to the clerk for filing. Judges are encouraged, but not required, to electronically file an order back to the clerk's office.

#### 4.8.1.2 Request for Citations

When citation is needed, the filer must select "Issue Citation" as an additional service.

#### *Preferred Clerk Implementation*

1. Clerk accepts the lead document and attachments and then electronically prepares the citation.
2. Clerk sends the citation to the filer via
  - a. The eFileTexas system as a "eServe Only" filing,
  - b. Email to the party using the email address on file.

**4.8.2 ACCEPTANCE OF DOCUMENTS TENDERED FOR FILING**

A clerk must accept a document tendered for e-filing unless specifically authorized not to accept the document(s) by statute, Texas Rules of Appellate Procedure, or by the Texas Rules of Civil Procedure for the reasons listed below.
